2024 Meeting Program

Thursday 5th Dec. 2024

KFMC- Main Auditorium

Date: Thursday 5th December

8:45 9:00 **Opening** Jamal Hoballah Lebanon

Session I (ESVS and wounds)

Panelists:(alphabetical):

Ahmed Sayed Badr Al Swailem Mohamed Awoda Mosaad Soliman Mostafa Soliman

9:00 9:08	Electrified wires for stent-graft fenestration: Which graft performs best.	Giovanni Torsello	Germany
9:08 9:16	Costs of TLR after stenting of the SFA, Results of multicenter European Study.	Giovanni Torsello	Germany
9:16 9:24	New Techniques in open repair of Thoracoabdominal Aortic aneurysms.	Sebastian Debus	Germany
9:24 9:32	How the ESVS produces guidelines: Step by step approach.	Sebastian Debus	Germany
9:32 9:40	Suprarenal Coral reef aorta. Results of the endovascular technique.	Giovanni Torsello	Germany
9:40 9:48	Hybrid revascularization; the best option for no-option in patients with CLTI.	Hisham Rashid	Kuwait
9:48 9:56	Efficacy of DCB vs standard balloon angioplasty in treating PAD:	Mohamed Awoda	UK

9:56 10:16 **Discussion**

10:16 11:00 **Coffee break & exhibition**

Second II (Carotid) (Neurointerventions)

Panelists:(alphabetical):

Ali Abu Rahma Ashraf Hedayet Jamal Hoballah Mohamed Jumaa Omamah Al Mousa

11:00 11:08	Best Surgical intervention in symptomatic non-atheromatous carotid disease (coils, kinks, dissections, Takaysu).	Mohamad AlMekhlafi	Canada
11:08 11:16	Significant differences in the SVS and ESVS in the management of asymptomatic carotid artery stenosis.	Ali Abu Rahma	USA
11:16 11:24	Updates on mechanical thrombectomy in acute stroke patients.	Mouhammad Jumaa	USA
11:24 11:32	Carotid Revascularization after thrombolysis/thrombectomy in acute stroke patients: best intervention (CEA vs CAS) and timing.	Mohamad Al Mekhlafi	Canada
11:32 11:40	New Technologies in stroke and carotid artery treatment.	Shashvat Desai	USA
11:40 11:48	Late neuro events of subclavian steal syndrome in over 10,000 duplex US, is it benign pathology.	Ali Abu Rahma	USA
11:48 11:56	Overview carotid protection devices.	Ashraf Hedayet	Egypt
11:56 12:04	Management of post op carotid complications: post op stroke/cerebral.	Omama Al Mousa	KSA
12:04 12:12	Surgical Approach in complex carotid body tumors: tips and tricks.	Carlos Bechara	USA
12:12 12:20	TCAR compared to other carotid interventions (CEA/CAS): How I do it.	Nick Moawad	USA

12:20 12:40 **Panel Discussion**

12:40 13:30 **Lunch break & exhibition**

Session III (Diabetic foot and Wounds)

Panelists:(alphabetical):

Gaith Khougeer Hany Zayed Khalid Al Omar Mamoon Albasheer Sameh Elimam

13:30 13:38	Diabetic foot in remission.	Amr Abo Rahma	Egypt
13:38 13:46	New Technique for Wound healing Enhancement.	Mostafa Soliman	Egypt
13:46 13:54	Cutoff value of ankle brachial pressure index for VAC in diabetic foot ulcer.	Mosaad Soliman	Egypt
13:54 14:02	PRP in management of diabetic foot ulcers.	Hisham Shraf Eldin	Egypt
14:02 14:10	How to navigate difficult lower extremities recanalization in diabetic patients	Munier Nazzal	USA
14:10 14:18	Innovations and evolving technologies and techniques in PAD.	Michael Lichtenberg	Germany
14:18 14:26	The principles and concept of Oncovascular surgery.	Mohamed Baguneid	UAE
14:26 14:34	Covered endovascular reconstruction of aortic bifurcation (CERAB) technique , Al-Azhar University experience.	Sameh Elimam	Egypt
14:34 14:42	Below the ankle angioplasty: A critical step in Diabetic foot salvage.	Mahmoud Salah	KSA

14:42 15:00 **Panel Discussion**

15:00 15:30 **Lunch break & exhibition**

Session IV (PAD)

Panelists:(alphabetical):

Hashim Saqer Hisham Basiouny Hisham Sharaf Eldin Hussain Barayan Munir Nazzal

15:30 15:38	Debate (1): Results from BASIL-2 and BEST-CLI do not apply to our population in the Arab region: For the motion.	Mosaad Soliman	Egypt
15:38 15:46	Debate (1): Results from BASIL-2 and BEST-CLI do not apply to our population in the Arab region: Against the motion.	Fady Haddad	Lebanon
15:46 15:54	Safe outpatient lower extremity revascularization.	Mohamed Al Shammari	KSA
15:54 16:02	Bypass in the leg after failed endorepair: Do the results compare to first line bypass?	Julien Sfeir	Lebanon
16:02 16:10	Debate 2: Lower limb revascularisation in CLTI with a patent target vessel when no saphenous vein is available: Endovascular revascularisation is the best option.	Hashem Barakat	Jordan
16:10 16:18	Debate (2): Lower limb revascularisation in CLTI with a patent target vessel when no saphenous vein is available: Arm and composite vein bypasses are the best option.	Jamal Hoballah	Lebanon
16:18 16:26	Use of laser in Arterial Surgery, PAD.	Shadi Abu Halimah	USA
16:26 16:34	Endovascular approach to acute ischemia.	Loay Kabbani	USA
16:34 16:42	Antegrade crossing the actual road.	Sherif Omar	Egypt
16:42 16:50	Lower limb ischemia endovascular approach	Hussien Kamal	Egypt

16:50 17:10 **Panel Discussion**

17:10 17:30 **Adjourn first day**

Friday 6th Dec. 2024

KFMC- Main Auditorium

Date: Friday 6th December

Session V (Women In Surgery and Vascular Surgery in the Arab World)

Panelists:(alphabetical):

Jamal Hoballah Omama Mousa Sherene Shalhub Wassila Taha Tania Guzman

9:00	9:08	Encouraging women to build a career in vascular	Samar Alsaggaf	KSA
9:08	9:16	Women in medicine and professional business: Current and Future.	Samar Alsaggaf	KSA
9:16	9:24	Women in Vascular Surgery: The US experience.	Sherene Shalhub	USA
9:24	9:32	How to improve women involvement in the middle East: Can lessons from West apply.	Samar Alsaggaf	KSA
9:32	9:40	Women challenges in training and building a career in medicine.	Omamah Al Mousa	KSA
9:40	9:48	Women surgeons in the Islamo Arabian era (1)	Maamoon Albasheer	Jordan
9:48	10:08	Panel Discussion		

Session VI (Venous)

Panelists:(alphabetical):

Adel Aswad Munier Nazzal Khalid Bakerman Mosaad Soliman Nasser El Said

10:08	10:16	Which venous ablation modality?	Shadi Abu Halimah	USA
10:16	10:24	Contemporary management of pelvic vein incompetence, pelvic vein syndrome.	Ameer Malkawi	Jordan
10:24	10:32	Tips and tricks on crossing venous occlusion.	Shagran Bin Khamis	KSA
10:32	10:40	Endovascular management of iliac aneurysm.	Haytham Hamid	UK
10:40	10:48	High Flow Malformation-NBCA Input.	Amr Abdel Rehiem	Egypt
10:48	10:56	The dilemma of upper extremity DVT in athletes.	Ayman Fakhry	Egypt
10:56	11:04	Klippel trenauay syndrome.	Mohamed Haggag	Egypt
11:04	11:12	The Common femoral vein: The key of venous revascularization.	Mosaad Soliman	Egypt
11:12	11:20	Treatment of vulvoperineal varices without pelvic congestion.	Jihane Ben Cheikh	Tunisia
11:20	11:40	Panel Discussion		
11:40	13:00	Break And Friday Pray		

Session VII (Aortic session)

Panelists:(alphabetical):

Ayman Abdelfatah Ayman Fakhri Khalid Bakerman Loai Kabbani Mosaad soliman

13:00	13:08	My algorithm in treating Acute Thoracic Aortic Syndrome – PAU/IMH/Dissection - How I do it –	Sherene Shalhub	USA
13:08	13:16	Hybrid repair of TAAA : How I do it and does it work.	Samer Koussayer	KSA
13:16	13:24	The role of fenestrated EVAR/TEVAR in aortic emergencies.	Abdulla Al Fawwaz	Kuwait
13:24	13:32	Stenting of aortic Coarctation in adults: Maybe the first best treatment option before CABG in acute coronary syndrome	Nasser El Said	Egypt
13:32	13:40	Aortic infections: infectious aortitis (mycotic aneurysms), infected grafts (How I do it).	Morad Sallam	UK
13:40	13:48	EVAR in challenging anatomies : BEVAR / FEVAR / ChEVAR.	Tarek Massimi	Jordan
13:48	13:56	Secondary intervention and management of Failed EVAR.	Carlos Bechara	USA
13:56	14:04	TEVAR in challenging proximal landing zones : options of treatments and how I do it.	Samer koussayer	KSA
14:04	14:12	Aortic rupture – preoperative imaging / present not present – open vs endo, when to decompress the abdomen.	Sherene Shalhub	USA
14:12	14:20	Debate: EVAR should be the first line therapy for anatomically suitable infrarenal AAA in the Middle East.	Fady Haddad	Lebanon
14:20	14:28	Debate: Open AAA repair should be the first line therapy for anatomically suitable infrarenal AAA in the Middle East.	Tarek Abdul Azim	Egypt
14:28	14:36	Use of Bovine pericardium in aortic reconstruction.	Maamoon Albasheer	Jordan
14:36	14:50	Panel Discussion		
14:50	16:00	Lunch break & exhibition		

Session VIII (Innovation and vascular surgery and vascular research)

Panelists:(alphabetical):

Hattan Al Ghamdi Jamal Hoballah Martin Maresh Mohamed Jumaa Munier Nazzal

16:00	16:08	New Technologies in venous thrombectomy, which one?	Munier Nazzal	USA
16:08	16:16	Robotic assisted surgery for AAA repair.	Hisham Basiouny	Egypt
16:16	16:24	How to advance the vascular interventions innovation.	Shashvat Desai	USA
16:24	16:32	New Technologies in vascular Education.	Omamah Al Mousa	KSA
16:32	16:40	New technologies in research in vascular surgery.	Munier Nazzal	USA
16:40	16:48	How to think through difficult cases in carotid interventions.	Mohamed Jumaa	USA
16:48	16:56	Innovation in Aortoiliac occlusive disease.	Tania Guzman	UAE
16:56	17:04	artificial intelligence in Medicine and vascular surgery.	Muath Aldergham	jordan
17:04	17:12	Robotic Application in Vascular surgery.	Heitham Albeshri	KSA
17:12	17:30	Panel Discussion		
17:30	17:50	Adjourn Second day		

Date: Saturday 7th December

Session IX (AV access)

Panelists:(alphabetical):

		Ahmed Sayed	Amr Abo Rahma	Amr Abdelrehiem	Essam Ayiad	Marzook Albadr			
9:00	9:08	AVM management.					Mohamed Badran	Jordan	
9:08	9:16	Access Flow Reduction; Indications, tips and tricks.					Tarek Abdel Aziem	EGYPT	
9:16	9:24	KDOQI guidelines: How application in our region?					Khalid AlMaatham	KSA	
9:24	9:32	Central vein recanalization from angioplasty to sharp recanalization.					Mohamed Badran	Jordan	
9:32	9:40	Cannulation zone/outflow stenosis: endovascular management					saad Bin Ayeed	KSA	
9:40	9:48	Choosing the best endo AVF:How I do it?					Ahmed Afandi	KSA	
9:48	9:56	A case of takayasu disease affecting aberrant subclavian artery.					Najib Bouayad	Algeria	
9:56	10:04	The exhausted vascular access. Unconventional options.					Mohamed Al Kassaby	Ireland	
10:04	10:24	Panel Discussion							
10:24	11:00	Coffee break & exhibition							

Session X (Challenging cases)

Panelists:(alphabetical):

		Abdullah al haizaey	Khalid Brakait	Martin Maresh	Marzook Albadr	Mosaad Soliman			
11:00	11:08	Ambiguous Endoleak after Hybrid Intervention For Thoracic Aortic Aneurysm : Case Presentation.					Ayman Abdel Fattah	Egypt	
11:08	11:16	Renal artery aneurysm a case presentation and update on management guidelines.					Ahmed Ismael	Egypt	
11:16	11:24	Aorto- iliac Nightmares.					Ahmed Sayed Mostafa	Egypt	
11:24	11:32	Intravascular foreign bodies.					Hossam Tawfik	Egypt	
11:32	11:40	Inferior Pancreatic Dudenal Artery Aneurysm.					Maisa Abdel Wahab	Egypt	
11:40	11:48	Giant Extracranial Internal Carotid Artery Aneurysm.					Mohamed El Meadawy	Egypt	
11:48	11:56	Big false aneurysm complicating Bental operation					Imad Frikha	Tunisia	
11:56	12:04	Hidden in plain sight : Decoding and insights on PCS.					Mohamed Emad Eldin	Egypt	
12:04	12:24	Panel Discussion							

Session XI (Challenging cases)

Panelists:(alphabetical):

		Abdulmutalib Masloom	Badr Al Swailem	Nabil Bathib	Ridah jamjom	Samer koussayer			
12:24	12:32	Update on the Saudi vascular society (SVS).					Ridah jamjom	KSA	
12:32	12:40	Nightmare case.					Mosaad Alhamzah	KSA	
12:40	12:48	Recurrent Aorto-Enteric Fistula After EVAR : When Nightmare Never Ends.					Samer Koussayer	KSA	
12:48	12:56	Nightmare case: Challenges in endovascular management of Aortoiliac occlusive disease.					Hossam Naser	KSA	
12:56	13:04	Use of carbon dioxide in endovascular interventions.					Abdullah Al fozan	KSA	
13:04	13:12	Expanding sac without visible endoleak: management approach.					Bader Al Sweilem	KSA	
13:12	13:20	Management of aortic aneurysm in children: challenging cases.					Khalid Brakait	KSA	
13:20	13:28	Staged treatment of complicated acute aortic dissection : case presentation.					Abdel Aziz Shomer	KSA	
13:28	13:36	Epidemiology of Peripheral arterial disease in the Arab World: Current status and future challenges.					Ahmad Sakr	KSA	
13:36	13:44	A challenging case of Thoracic Aortic Aneurysm.					Hussein Alkohani	KSA	
13:44	14:04	Panel Discussion							
14:04	14:35	Coffee break & exhibition							

Session XII (How do I do it)

Panelists:(alphabetical):

		Hussein Alkohani	Maamoon Albashir	Mohamed Elkassaby	Mohamed Hosney	Mohamed El Meadawy			
14:35	14:43	Trapdoor aortic Thromboendarterectomy, a forgotten procedure.					Ayman Ahmed	USA	
14:43	14:51	Multi-modality management of subclavian pseudo-aneurysm.					Hasan Al Thani	Qatar	
14:51	14:59	Advantage of using inner branch BEVAR for TAAA.					Wisam al jundi	UK	
14:59	15:07	A nightmare case of ruptured Thoracoabdominal aneurysm after Frozen elephant trunk.					Hazem El Beyrouti	Germany	
15:07	15:15	Endovascular is always an option when things go wrong.					Michel Feghali	Lebanon	
15:15	15:23	Managemnt of challenging endoleaks after EVAR/ BEVAR.					Tareq Massimi	Jordan	
15:23	15:31	Endovascular repair of ruptured TAAA with in-situ laser fenestration.					Loay Kabbani	USA	
15:31	15:39	How I do it: Percutaneous Deep venous arterialisation.					Hany Zayed	UK	
15:39	15:47	How I do it: Distal and ultra-distal bypasses.					Hisham Rashid	Kuwait	
15:47	16:07	Panel Discussion							
16:07	16:35	Lunch break & exhibition							

Session XIII (Research and Abstracts)

Panelists:(alphabetical):

		Abdel Aziz Shomer	Hossam Naser	Jamal Hoballah	Sherene Shalhub	Hany Zayed			
16:35	16:43	Aortic aneurysm turndown, a retrospective cohort study of Northern Ireland regional vascular unit, single centre experience and the need of creating a new turndown care pathway.					Mansoor Husain	UK	
16:43	16:51	Early experience using Inner-Branch Device for Hostile Neck and Thoracoabdominal Aneurysms Endovascular Repair.					Islam kumainasy	Jordan	
16:51	16:59	Post-operative pulmonary complications following endovascular aortic repair: risk factors and long-term impact.					Katarzyna Powezka	UK	
16:59	17:07	Re-evaluating the Role of Remote Superficial Femoral Artery Enderterectomy in Chronic Limb-Threatening Ischemia Patients without Vein Conduit: A Case Series.					Mohammed Elsabbagh	UK	
17:07	17:17	Panel Discussion							
17:17	17:30	Adjourn and Closing Remarks					Jamal Hoballah	Lebanon
